

Love?

- Love!!!
- Julius Caesar, ruler of Rome in around 40 B.C. was in love with Cleopatra, ruler of Egypt
- He assisted her in an attempted coup
- Stayed with her for some months (got her pregnant) and then returned to Rome

- When he returned he changed their calendar which was established some 700 years before
- This was no small feat
- He called in mathematicians, Scholars and philosophers to bring in the Egyptian calendar
