

- 
- 
- What other elements of our concept of time have origins elsewhere?

- 
- A decorative vertical bar in a light olive green color runs along the left edge of the slide. A thin horizontal line in a dark purple color spans the width of the slide, intersecting the vertical bar. To the right of this line, there is a small rectangular block in a light grey color.
- Our 24 hour day comes from the Babylonians who determined almost everything by 6
 - Their time was all divisible by 6
 - 60 seconds
 - 60 minutes
 - 24 hours
 - 360 days per year
 - 360 degrees in a full circle
