

It's been said that government doesn't create jobs, business does. For the most part, this is true. But government creates the environment in which businesses can excel and expand.

How do you “create jobs” if you’re a government?

Grade 9 review

Two Key Terms

- What is a **tariff**?
- A tax on imported goods designed to make domestic goods more appealing to consumers
- What is a **subsidy**?
- Funds provided by a government to domestic producers, which makes domestic goods cheaper and more appealing to domestic customers
