

Textbook Example

Some Perceived Advantages

- Competition between companies results in low prices, higher quality, and wider selection of goods.
- Efficiency is encouraged in use of resources and the operation of companies to keep production costs low.
- Technology and innovation are encouraged.
- Workers and owners are motivated to earn money and make profits.
- The economy can respond quickly to change.
- When a company is doing well, it can afford to pay its workers well. When there is a shortage of workers, a company will pay higher wages to attract and keep them.

Any Con's to Cap?

- So capitalism is better than mercantilism but... Is there any down side to it?
- Radium Girls
- Triangleshirt
- Bangladesh
