

Charles-Louis de Secondat, Baron de La Brède et de Montesquieu (**Montesquieu**)

Montesquieu saw two types of governmental power existing: the sovereign and the administrative.

The administrative powers were **the executive, the legislative, and the judicial.**

These should be separate from and dependent upon each other so that the influence of any one power would not be able to exceed that of the other two, either singly or in combination.

1689 - 1755
