and control*

*Who should the goods/services be distributed to:
government ensures economic equality by controlling
the distribution*

THREE ECONOMIC QUESTIONS

THREE ECONOMIC QUESTIONS

- *What goods/services to produce: government determination of goods citizens need*
 - *How to produce the goods/services: government planning and control*
-
- *Who should the goods/services be distributed to: government ensures economic equality by controlling the distribution*

COMMUNISM – PROS

Advantages

- encourages high rates of economic growth
- helps reduce wastage of resources
- distribution of income is more equal
- essential goods are produced before less essential goods
- do not suffer from trade cycles
