

TEXTBOOK DEFINITIONS

Diversification: media companies expanding and branching out in to different areas of the media industry.

Universalization of Pop Culture: Culture spread of popular ideas, music, dance, fashion, and other social factors around the world. Usually spread by media and communications technology. It allows culture to mix and change.

Hybridization: The combining of elements of two or more different things to create something new.

Define “media” (why the word “media?”)

What types of “media” do you see everyday?

Are you a passive or active consumer of media?
