

Paging Dr. Bentham

- * Five mortally ill patients are in care at a hospital, all of whom will soon die. At the same time, a sixth man is undergoing a routine checkup at the same hospital. A transplant surgeon in residence finds that the only medical means of saving the five ailing patients would be to slay the sixth and transplant into them his healthy organs. Legal ramifications and other peripheral matters disregarded, **it morally right to do so?**
- * **Don't worry about specifics about the people, just generally speaking. RIGHT OR WRONG!?**

DEMOCRATIC THOUGHTS

- Before we begin, decide whether or not you think *democracy* is MORE individualist or collectivist?
- Why do you think this?
